

## Week 8 - Session 3 - Fish Unit

### Goals

All Fish Unit Resources for the week can be accessed on our [Parent Resource Page for the Fish Unit](#).

Today your child will be introduced to the Life Cycle of a Fish and get to make their own life cycle representation of their favorite fish. We will also conduct an experiment on how Fish use their gills to breathe!

### Activities & Resources

- **Life Cycle of a Fish Craft:** Check out this video on the ["life cycle of a fish"](#), where you will learn about the different stages fish go through to become a fish! Children can also bring out their crafty side and are invited to make their own life cycle craft. Check out this ["example here!"](#)
- **Life Cycle of a Fish Color Online:** Children will love this ["online coloring resource"](#) from Supercoloring.com where they get to see their artwork come to life. Choose from a variety of colors and color the day away!
- **How do Fish breathe experiment:** Children are invited to conduct their own ["how do fish breathe"](#) experiment and see how fish can breathe underwater! Before you watch this video, make sure you have these supplies ready:
  - A cup you can see through;
  - a coffee filter;
  - a rubber band;
  - ground coffee or sand;

- 
- and a cup of water;
  - **The Fish Song:** Let's move and groove like a fish while learning about them! Children are invited to follow along with the ["Fish Song"](#) and learn some fun facts.
